Memorandum

From the Office of
Chairman Bob Stump
Arizona Corporation Commission
1200 W. WASHINGTON
PHOENIX, ARIZONA
(602)542-3935

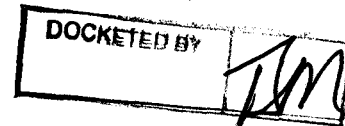

TO: Docket Control

DATE: February 7, 2013

FROM: Trisha A. Morgan, Executive Aide

SUBJECT: Comment Letters – In Opposition
TEP Rate Case E-01933A-12-0291

Arizona Corporation Commission
DOCKETED
FEB 07 2013

On January 24, 2013, the Commission Wing received, via fax, 160 letters in opposition to the above captioned docket. The letters are in response to communications sent by AARP. Be advised these letters were not distributed but that they are in the original file in Docket Control and available for your review.

RECEIVED
FEB -1 P 2 15
AZ CORP COMMISSION
DOCKET CONTROL

Jan 24, 2013

Commissioner Bob Stump
1200 W. Washington - 2nd Floor
Phoenix, AZ 85007

Honorable Commissioner Stump,

Tucson Electric has asked to raise the average residential electric bill more than \$127 a year.

Many Arizonans, especially those who are older, are on fixed incomes and cannot afford a 15% increase. Many expenses are going up including food, insurance, medical care.

Tucson Electric is asking for too much!

The Arizona State Government's Residential Utility Consumer Office staff recommends a much lower increase of only 5.5%.

Tucson Electric is now trying to negotiate a settlement to get their full 15.27% increase.

I'm respectfully requesting that you, as an elected utility regulator, please do what you can to oppose raising the average residential electric bill \$127 a year.

I look forward to your action. Thank you.

Sincerely,

Mrs. Denise Du Pont
3249 E Camino Campestre
Tucson, AZ 85716-5828

Jan 24, 2013

Commissioner Susan Bitter Smith
1200 W. Washington - 2nd Floor
Phoenix, AZ 85007

Honorable Commissioner Bitter Smith,

Tucson Electric has asked to raise the average residential electric bill more than \$127 a year.

Many Arizonans, especially those who are older, are on fixed incomes and cannot afford a 15% increase. Many expenses are going up including food, insurance, medical care.

Tucson Electric is asking for too much!

The Arizona State Government's Residential Utility Consumer Office staff recommends a much lower increase of only 5.5%.

Tucson Electric is now trying to negotiate a settlement to get their full 15.27% increase.

I'm respectfully requesting that you, as an elected utility regulator, please do what you can to oppose raising the average residential electric bill \$127 a year.

I look forward to your action. Thank you.

Sincerely,

Ms. Geraldine Mathis
1532 W Sendero Cuatro
Tucson, AZ 85704-2050

Jan 24, 2013

Commissioner Susan Bitter Smith
1200 W. Washington - 2nd Floor
Phoenix, AZ 85007

Honorable Commissioner Bitter Smith,

I have been working hard all year to try and reduce the amount of my utilities and monthly expenses. Now I hear that Tucson Electric has asked to raise the average residential electric bill more than \$127 a year.

Many Arizonans, especially those who are older, are on fixed incomes and cannot afford a 15% increase. Many expenses are going up including food, insurance, medical care.

Tucson Electric is asking for too much! How about increasing no more than the increases given by Social Security for normal Cost of Living? That would seem to be more fair than being given \$10 by one branch of Government and having \$25 taken by another!

The Arizona State Government's Residential Utility Consumer Office staff recommends a much lower increase of only 5.5%.

Tucson Electric is now trying to negotiate a settlement to get their full 15.27% increase.

I'm respectfully requesting that you, as an elected utility regulator, please do what you can to oppose raising the average residential electric bill \$127 a year.

I look forward to your action. Thank you.

Sincerely,

Ms. CONSTANCE DENT
5607 E Hawthorne St

Honorable Commissioner Stump,

Tucson Electric has asked to raise the average residential electric bill more than \$127 a year.

The one thing that certainly will not be going up by an average of 15% are retirement benefits Nor social security. It does appear however, that everyone else is asking for rate increases. I am already doing my best to lower my utilities bills by keeping my thermostat low in winter and cooler off in summer. I try to turn lights off whenever not in use, use small appliances rather than large ones when possible, take cold showers in summer, short ones in winter. I've done just about all I can to keep my bill as low as possible and my reward is to see an increase in rate. When I am already making choices between, food, medicine and medical care because I cannot afford them all, you now want me to bite that bullet harder. What shall I stop doing? Taking my medications? Using my refrigerator, washer and dryer? I suppose if I just took fewer showers, ate less, washed less, and didn't suffer the ravages of time on my body and health everything would be a little easier.

Set up a lifeline service for Seniors on low fixed incomes and I'll live within it, but please don't make me choose between eating, medical care and being able to afford to keep the electricity on in my home.

Sincerely,

Mr. Sonny Aros

Many Arizonans, especially those who are older, are on fixed incomes and cannot afford a 15% increase. Many expenses are going up including food, insurance, medical care.

Tucson Electric is asking for too much!

The Arizona State Government's Residential Utility Consumer Office staff recommends a much lower increase of only 5.5%.

Tucson Electric is now trying to negotiate a settlement to get their full 15.27% increase.

I'm respectfully requesting that you, as an elected utility regulator, please do what you can to oppose raising the average residential electric bill \$127 a year.

I look forward to your action. Thank you.

Sincerely,

Ms. Lynne Smiley

Jan 24, 2013

Commissioner Susan Bitter Smith
1200 W. Washington - 2nd Floor
Phoenix, AZ 85007

Honorable Commissioner Bitter Smith,

I have read that Tucson Electric has asked to raise the average residential electric bill more than \$11 per month or 15%.

I am on a fixed income as a disabled person and cannot afford a 15% increase. All my other expenses have continued to rise dramatically, including food, insurance, medical care, (especially medical care) this year. But my income has not gone up enough to cover even a small portion of these other increases.

Tucson Electric is asking for too much! And I do not appreciate this.

The Arizona State Government's Residential Utility Consumer Office staff recommends a much lower increase of only 5.5%.

Tucson Electric is now trying to negotiate a settlement to get their full 15.27% increase.

I'm respectfully requesting that you, as an elected utility regulator, please do what you can to oppose raising the average residential electric bill that much.

It is NOT fair as an across the board increase. Perhaps those who make below a certain income could have a lower increase or none, with those who can really afford it paying more. The same increase for everyone who do not have the same ability to earn more income is not fair.

I look forward to your action. Thank you.

Sincerely,

Ms. Debra Holder

Honorable Commissioner Bitter Smith,

It appears that Tucson Electric is trying to force those of us on fixed incomes out onto the street!!!

It is absurd that TEP has asked to raise the average residential electric bill more than \$127 a year.

Many Arizonans, especially those of us who are older, are on fixed incomes and cannot afford a 15% increase. Many expenses are going up including food, insurance, medical care, while the COLA has not kept pace.... we didn't even get one for years until this year.

This is WAY too much to ask of consumers!

The Arizona State Government's Residential Utility Consumer Office staff recommends a much lower increase of only 5.5%.

Tucson Electric is now trying to negotiate a settlement to get their full 15.27% increase.

As an elected utility regulator, please do whatever it takes to stop this rise in the average residential electric bill of \$127 a year.

I look forward to your action. Thank you.

Phoenix, AZ 85007

Honorable Commissioner Bitter Smith,

Tucson Electric has asked to raise the average residential electric bill more than \$127 a year.

Many Arizonans, especially those who are older, are on fixed incomes and cannot afford a 15% increase. Many expenses are going up including food, insurance, medical care.

Tucson Electric is asking for too much!

The Arizona State Government's Residential Utility Consumer Office staff recommends a much lower increase of only 5.5%.

Tucson Electric is now trying to negotiate a settlement to get their full 15.27% increase.

I'm respectfully requesting that you, as an elected utility regulator, please do what you can to oppose raising the average residential electric bill \$127 a year.

I look forward to your action. Thank you.

Sincerely,

Ms. M. Louise Cavatta
1725 W Reina Cir
Tucson, AZ 85705-1315

Tucson Electric has asked to raise the average residential electric bill more than \$127 a year.

Many Arizonans, especially those who are older, are on fixed incomes and cannot afford a 15% increase. Many expenses are going up including food, insurance, medical care.

Tucson Electric is asking for too much!

Like many arizonans I have applied efficiency measures throughout my house and installed grid-tied solar panels on my roof, helping TEP meet their renewables goal. I am trying as hard as I can to lower my electric bill and I don't think you should allow this big coal-burning corporation to raise my rates. You are my elected representatives!

The Arizona State Government's Residential Utility Consumer Office staff recommends a much lower increase of only 5.5%.

Tucson Electric is now trying to negotiate a settlement to get their full 15.27% increase.

Phoenix, AZ 85007

Honorable Commissioner Bitter Smith,

Tucson Electric has asked to raise the average residential electric bill more than \$127 a year.

Many Arizonans, especially those who are older, are on fixed incomes and cannot afford a 15% increase. Many expenses are going up including food, insurance, medical care.

Tucson Electric is asking for too much!

The Arizona State Government's Residential Utility Consumer Office staff recommends a much lower increase of only 5.5%.

Tucson Electric is now trying to negotiate a settlement to get their full 15.27% increase.

I'm respectfully requesting that you, as an elected utility regulator, please do what you can to oppose raising the average residential electric bill \$127 a year.

I look forward to your action. Thank you.

Sincerely,

Ms. Pat Lukensmeyer

Phoenix, AZ 85007

Honorable Commissioner Bitter Smith,

Tucson Electric has asked to raise the average residential electric bill more than \$127 a year.

The one thing that certainly will not be going up by an average of 15% are retirement benefits Nor social security. It does appear however, that everyone else is asking for rate increases. I am already doing my best to lower my utilities bills by keeping my thermostat low in winter and cooler off in summer. I try to turn lights off whenever not in use, use small appliances rather than large ones when possible, take cold showers in summer, short ones in winter. I've done just about all I can to keep my bill as low as possible and my reward is to see an increase in rate. When I am already making choices between, food, medicine and medical care because I cannot afford them all, you now want me to bite that bullet harder. What shall I stop doing? Taking my medications? Using my refrigerator, washer and dryer? I suppose if I just took fewer showers, ate less, washed less, and didn't suffer the ravages of time on my body and health everything would be a little easier.

Set up a lifeline service for Seniors on low fixed incomes and I'll live within it, but please don't make me choose between eating, medical care and being able to afford to keep the electricity on in my home.

Sincerely,

Mr. Sonny Aros

We had an increase a few years ago. There are many people on fixed incomes or who just simply make enough money to pay these excessive rates. Especially as it gets so hot here in the summer.

So what't this lie that nuclear power delivers cheaper electricity?

1200 W. Washington - 2nd Floor
Phoenix, AZ 85007

Honorable Commissioner Bitter Smith,

Tucson Electric has asked to raise the average residential electric bill more than \$127 a year.

Many Arizonans, especially those who are older, are on fixed incomes and cannot afford a 15% increase. Many expenses are going up including food, insurance, medical care.

Tucson Electric is asking for too much!

The Arizona State Government's Residential Utility Consumer Office staff recommends a much lower increase of only 5.5%.

Tucson Electric is now trying to negotiate a settlement to get their full 15.27% increase.

I'm respectfully requesting that you, as an elected utility regulator, please do what you can to oppose raising the average residential electric bill \$127 a year.

I look forward to your action. Thank you.

This increase is close to 10 times the amount my cola % is this year. I urge you to fight for us seniors on fixed incomes.
Thank you

Sincerely,

Mr. William Boyett
2744 N Hopi Pl
Tucson, AZ 85705-4729
